Syllabus

## Midterm II (7.12. at 13:00 – 15:00)

### Midterm 2 is organized 7.12. at 13 – 15.

The exam opens in this section at 13:00, and the exercises close automatically at 15:00. There are two assignments – one for accounting, one for investments – and one try for each assignment. So please, do not submit your answers before you are certain of them. In case time runs out, your answers are submitted automatically.

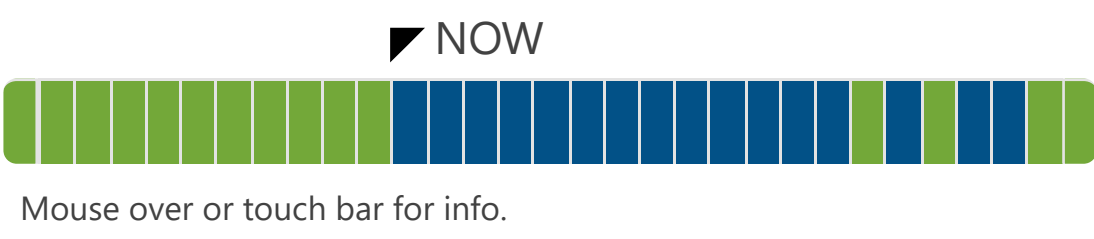

You also need to hand in the Excel sheet in .xls format, where your calculations can be clearly seen. This is required to 1) prevent plagiarism and 2) give you points in case your initial answer is not correct. For handing in your excel sheet, you have 10 minutes time, e.g. until 15:10. Name your file in the format assignment(version)studentnumber.xls (or other spreadsheet format), for example 1(1)123456.xls. **Submitting the Excel is mandatory.**

In the question, you are told the accuracy with which you need to give your answer. Always give your answer without any units. In case your result is negative, put the minus sign in front of your answer: -[x].

In case you face problems during the exam, contact the course email [tu-a1300@aalto.fi](mailto:tu-a1300@aalto.fi).

Good luck!
